HANDGUARDS // LINEAR

- Open MX Style handguard with universal mount for all types of handlebars
- Made of polypropylene with Nylon mounts
- Its design gives it strength and light weight and offers adequate ventilation points
- The under loop mount allows for independent vertical adjustment of the handguard and lever assembly.
- Mounts to bar without interference to other clamped controls allowing them to remain in their original positions.
- Tilt adjustable spoiler for optimal hand coverage.
- Quick to assemble spoiler due to the use of 2 self-tapping screws
- Mounting kit included

SKID PLATES // BETA

- Latest generation sub-engine made of high-strength plastic with integrated fin
- Fin designed to protect the shock absorber linkage from impacts, mud and sand allows you to slide easily over natural obstacles (whoops, stones, logs) ensuring a smooth ride
- The design ensures maximum adherence to the link
- 6 mm thickness for maximum protection of the frame and engine
- Extended protection areas on the side casings, on the valve adjustment cover and in the footrest frame area
- Presence of unloading areas to give more lightness, ventilation and facilitate washing operations inside the sub-engine
- Design studied to reduce the entry of mud and debris into the engine
- Compatible with simultaneous use of X-POWER
- Using the two screws supplied and using the original bike attachments, it is possible to fasten and remove the sub-engine quickly.

SWING ARM PROTECTORS // BETA

ACERBIS TEKET MAGNET SWINGARM COVERS

- High-strength plastic swingarm protection.
- The main function of the Teket magnet is to protect the swingarm of the motorcycle from impacts with external obstacles such as stones, channels, etc., which cause deep cuts and / or scratches on the swingarm.
- Fixing with magnets and rubber bands, which allows quick removal of the protections from the swingarm in a few seconds, whenever you want to wash and / or maintain the swingarm.
- Intuitive and immediate reassembly in a few seconds
