**EVERYTHING YOU
HAVE EVER WANTED
IS ON THE OTHER
SIDE OF FEAR**

WITH YOU FOR THE RIDE!

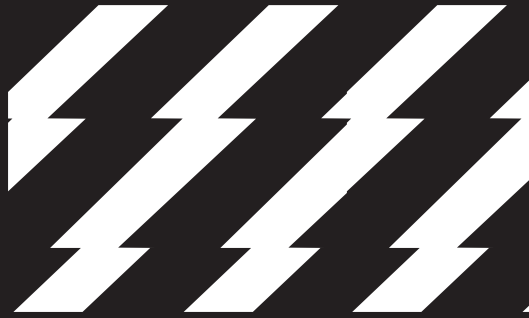

IT ALL STARTED BACK IN 1994...

At Muc-Off, we're really into being active. Whether it's at a race circuit, mountain pass or cruising on those sunny days, we just love to be outside and going big. We're obsessed with making the most innovative care and performance products around, so you and your toys can keep running smoothly and looking box-fresh.

So, what's the story? It all started way back in 1991 when Rex and Marilyn Trimmell got things started. Rex had an insatiable passion for motorcycles with a racing background in the 1960s. It was in his blood. After designing and manufacturing bicycle componentry, Rex created a perfectly pink spray to clean his kit and it wasn't long before word got out and Muc-Off was born.

Fast-forward to today and Muc-Off is now the go-to brand for top riders, racers, and enthusiasts in both cycling and powersports alike. From the World Superbike arena to the Tour De France we've got a stack of incredible athletes and teams using our products to keep them at the top of their game. And, in case you haven't noticed, we do a bit more than our original pink cleaner these days. We have an amazing range of lubricants, sprays, apparel and even antibacterial products – you name it, we've got it!

THE SYSTEM.

CLEAN . PROTECT . LUBE

ABOUT CLEAN . PROTECT . LUBE

The first step in the Clean. Protect. Lube process is clean. Removing all dirt, grime and Muc(k) that has attached itself to your bike from the day's ride. Leaving grime and other residues on your bike can start to degrade the drivetrain and damage the frame which is why it's important to clean your bike after each ride.

Simply put, using bike protection products after you've washed your bike acts as a shield to safeguard against rust and corrosion, keeping moving parts free and lubricated, all whilst preventing dirt adhesion.

Lube plays a huge role in reducing friction, wear, and resistance to your chain, you'll benefit from a more efficient ride, smoother shifting, and a long-lasting chain.

STEP 1 CLEAN

NANO TECH

MOTORCYCLE CLEANER

STEP 1 CLEAN

NOTHING GETS RID OF MUD & GRIME EASIER!

Using our state-of-the-art Nano Tech formula, Muc-Off cuts through grime quicker than you can say "OMG"! Thanks to its revolutionary Nano Technology, dirt and grime is broken down at microscopic levels, while also caring for your motorcycle's delicate finish. No matter how much mud or dirt is on your ride, our Nano Tech Motorcycle Cleaner will make light work of it, every single time.

- Biodegradable
- Safe on all parts & surfaces including carbon fibre
- Will not harm seals, cables, brake pads or rotors
- Effective road & off-road motorcycle cleaner
- Alkaline based and free from CFCs, solvents or acids

Sizes Available:

1L - Part No. 664-CTJ

5L - Part No. 667

25L - Part No. 906

Project Green approved formula

ECO & SAFE FOR YOUR BIKE

It's the most effective cleaner out there, and it doesn't even need any of those nasty, dangerous acids or chemicals. In fact, our perfectly pink cleaner is biodegradable, free from acids, CFCs and solvents, and it's alkaline based so you can clean away with a guilt-free conscience. It's safe on all surfaces, and it's even disc brake rotor and pad friendly.

PROJECT GREEN

Project Green is our never-ending commitment to delivering a multitude of environmentally-focused improvements across our business. We love the planet we ride on, it's our playground, and we're driven to protect it for everyone. This product has a Project Green credential; meaning that it's either biodegradable, refillable, reusable, or all three!

SO HOW DO YOU USE IT?

1. Rinse motorbike thoroughly before applying Nano Tech Motorcycle Cleaner.
2. Spray Nano Tech Motorcycle Cleaner onto the entire motorbike including components & leave for 3-5 minutes.
3. Agitate any stubborn grime with a brush or sponge.
4. Rinse entire bike thoroughly with fresh, clean water.

BIKE CLEANER CONCENTRATE

STEP 1 CLEAN

ECO REFILL

It's the same great Moto Cleaner, just add water. Developed to allow you to reuse and refill the 1L spray bottle. A 1L of Bike Cleaner Concentrate uses 75% less packaging than the equivalent four bottles of Nano Tech Motorcycle Cleaner.

1L of Bike Cleaner Concentrate makes up to 4 litres of Nano Tech Cleaner for your motorcycle.

- Biodegradable
- Powerful degreaser in concentrate form
- Uses 89% less packaging than two 1L Muc-Off bottles
- Safe on all surfaces including carbon fibre and anodised metal

Sizes Available:

1L - Part No. 347

5L - Part No. 348

SNOW FOAM

STEP 1 CLEAN

ULTRA-STABLE FOAMIN' FOR MAXIMUM COVERAGE!

Snow Foam is a new generation PH neutral, water-based pre-wash treatment. Designed to reduce damage to paintwork by breaking down stubborn dirt and road film, whilst preparing the vehicle for shampooing and detailing. Our formula is gentle and suitable for use with all pressure washer foam lances. Formulated specifically to offer maximum coverage, rinsing off easily with water.

- Biodegradable
- Premium foam treatment
- Rapidly remove dirt and grime
- Does not strip wax, sealant or polish (neutral PH)
- Lush cranberry fragrance

Sizes Available:

1L - Part No. 708

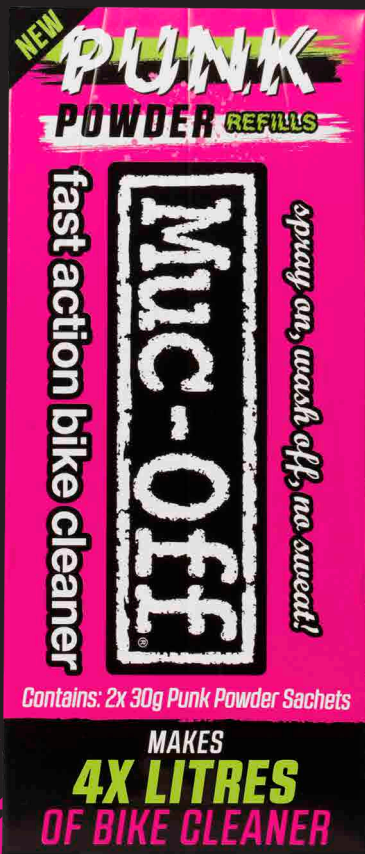

5L - Part No. 709

PUNK POWDER

BIKE CLEANER

STEP 1 CLEAN

THE WORLD'S FIRST PLASTIC-FREE BIKE CLEANER!

A seriously powerful formula with sustainability built in. Punk Powder is a dissolvable powder form of our Nano Tech cleaner. We've created a 100% plastic and water-free product that uses plant-based ingredients, even using vegetable inks printed onto compostable packaging, every single part of the process has been redefined to ensure that sustainability is built in.

- Makes 4x litres of Bike Cleaner
- 100% plastic-free packaging
- Readily biodegradable ingredients
- 100% water-free
- 100% environmentally friendly ingredients, including plant-based raw materials

Sizes Available:

4 PACK - Part No. 20561
MAKES 4X LITRES

Project Green approved formula

ECO PACKAGING

It's not just the powder that's green and mean (on grime), but the packaging too. It's 100% plastic-free, and each sachet is compostable (certified to EN 13432 standard) and made from renewable raw materials. We've even used vegetable-based inks!

EXTENSIVE DEVELOPMENT

Punk Powder took 3 years to develop...but why so long? Well, the challenge was to take the technology from our liquid-based bike cleaner and convert it into a high-tech powder using very different chemistry, so there was a ton of innovation required.

SO HOW DO YOU USE IT?

1. Grab your empty old bottle of Muc-Off or purchase our Bottle for Life.
2. Fill up to the shoulders of the bottle with 1 litre of lukewarm water for faster formula activation!
3. Carefully cut one corner of the sachet open along the diagonal cut lines.
4. You can carefully pour the sachet straight into the top of the bottle. Or using the box, fold the inside of the lid together using the printed lines as a guide and use this as a funnel to pour the powder into your bottle.
5. Shake the bottle vigorously for 30-60 seconds to activate the formula. If you notice any undissolved powder simply keep shakin' it!
6. Go clean that filthy bike!

PUNK POWDER STEP 1 CLEAN

BOTTLE FOR LIFE BUNDLE

ONE LIFE! ONE BOTTLE!

Our new Bottle For Life is a recyclable, tough aluminium spray bottle that'll stand the test of time and grime! It comes with a non-toxic, food-grade silicone base to protect the bottle and your bike, so it'll last even longer if dropped (while protecting any surface it's dropped on!) and offer increased stability when placed on uneven ground.

- Made from recyclable aluminium
- Non-toxic, silicone base for stability and protection
- Refill your Bottle For Life and help to eliminate plastic waste
- Bottle For life is compatible with our Muc-Off Pressure Washer snow foam lance attachment

Sizes Available:

Part No. 20609
1 LITRE BOTTLE + 4X 1L SACHETS

Project Green approved formula

WHY THE ALUMINIUM BOTTLE?

Not only is the aluminium more durable and longer lasting than plastic, it will withstand greater impacts if the bottle is dropped, meaning an increased life span. It can also be (infinitely) recycled at the end of its life. Aluminium can be recycled directly back into itself over and over again in a true closed loop.

WHY THE SILICONE BASE?

Silicone, which is made from silica found in sand, is much longer lasting than plastic in the environment. It's also safer for people, the planet and the oceans. Plastic can degrade over time and leak harmful toxins into the environment.

SO HOW DO YOU USE IT?

1. Grab your empty Bottle For Life.
2. Fill up to the shoulders of the bottle with 1 litre of lukewarm water for faster formula activation!
3. Carefully cut one corner of the sachet open along the diagonal cut lines.
4. You can carefully pour the sachet straight into the top of the bottle. Or using the box, fold the inside of the lid together using the printed lines as a guide and use this as a funnel to pour the powder into your bottle.
5. Screw your spray trigger back onto the top of the bottle. Ensure it's tight!
6. Shake the bottle vigorously for 30-60 seconds to activate the formula.
7. Go clean that filthy bike!

POWERSPORTS STEP 1 CLEAN

DRIVETRAIN CLEANER

ELIMINATES CHAIN OIL AND WAX IN SECONDS!

Got a load of grime, mud or oil build up on your machine's chain and sprockets? Then reach for our Powersports Drivetrain Cleaner! This product will make light work of the toughest of residue from all drivetrain areas, thanks to its fast and effective biodegradable formula. So there's no need to worry next time you're out riding on a muddy or wet day, as we've got you covered.

- Biodegradable
- Can be used on all motorcycles, quads, ATVs & UTVs
- Suitable for standard O, X, Z ring chains
- Water-soluble formula
- Fast and effective grease cutting formula

Sizes Available:

500ML - Part No. 20467

Project Green approved formula

BIODEGRADABLE FORMULA

Our Bio Drivechain Cleaner is readily biodegradable & has been since the start. Ingredients that are broken down naturally within 27 days and aren't harmful to the environment!

LESS PLASTIC!

Our new Drivetrain Cleaner bottles are being redesigned to remove their plastic over-sleeve. This is a small change but an important one, reducing plastic!

SO HOW DO YOU USE IT?

1. Shake bottle vigorously.
2. Spray all over the drivechain including chain, sprockets, rings and other parts.
3. Leave for up to 1 minute and agitate with a brush if required.
4. After agitation thoroughly rinse off with water making sure all of the formula has been removed.
5. Now apply Muc-Off MO-94 to disperse moisture before applying a chain lube.

BIO CHAIN CLEANER

STEP 1 CLEAN

Sizes Available:

400ML - Part No. 650

RAPIDLY SHREDS GRIME

Formulated to quickly and safely remove dirt, lube and heavy chain grime using advanced solvents. Our Bio Motorcycle Chain Cleaner uses a unique formula to rapidly shred grime to remove contaminants and leave the entire chain sparkling.

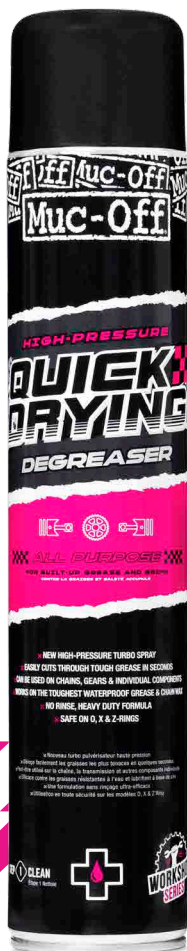

- Water-soluble
- Biodegradable
- Rapid grease shedding formula
- Suitable for standard O, X, Z ring chains
- Safe on rubber, metal & carbon fibre components

HIGH-PRESSURE QUICK DRYING DEGREASER

STEP 1 CLEAN

Sizes Available:

750ML - Part No. 20403

MAKES LIGHT WORK OF GREASE & GRIME

It makes light work of oil build-up, grease & grime, without the need for rinsing. Its unique dry 'zero residue' formula means that after cleaning, it evaporates to leave the area clean as a whistle, with no residue. It rips right through the toughest grime, including waterproof grease & chain lube.

- New high-pressure turbo spray
- No rinse, heavy duty formula
- For chains, gears, mechs & individual components
- Works on the toughest waterproof grease & chain wax
- Safe on O, X and Z-rings

RE-HYDRATING DISC BRAKE CLEANER

STEP 1 CLEAN

Sizes Available:

400ML - Part No. 613

REMOVES OIL, BRAKE FLUID, GREASE & GRIME!

This unique formula breaks down unwanted particles getting rid of grime and mud from disc brake rotors and pads. Added conditioners re-hydrate the disc brake pad to dramatically reduce brake squeal and prolong disc brake life, leaving brake discs and other braking parts clean and contaminant-free with its re-hydrating capabilities.

- Improves braking performance
- Removes brake dust, oil, grease and grime
- Improves braking performance
- Dramatically reduces brake squeal
- Prolongs disc pad life

BIO DEGREASER

STEP 1 CLEAN

Sizes Available:

500ML - Part No. 648

SAY GOODBYE TO OIL, GREASE & GRIME!

Quickly and safely eliminate the build-up of oil, grease, and grime on metal, plastic, rubber, and seals. Our water-soluble formula means after use it can quickly be rinsed off with water, leaving your greasy bike parts completely clean. Working on even the toughest of grime including waterproof grease and chain lube/wax residue.

- Biodegradable
- Water-soluble formula
- Safe on all components
- Removes oil, grease and grime

HIGH-PERFORMANCE STEP 1 CLEAN

WATERLESS WASH

NO WATER! NO PROBLEM!

A highly advanced, easy-to-use spray that cleans and polishes in seconds without the need for water. It details your whole motorcycle in seconds leaving behind a streak-free shine. Its innovative formula is designed to encapsulate any surface dirt to prevent scratching. Use it to remove light contaminants in-between major washes.

- Cleans & polishes in one application
- No residual dust or streaks
- Non-sticky
- Powder-free

Sizes Available:

750ML - Part No. 1132

5L - Part No. 20536

2 IN 1 CHENILLE MICROFIBRE WASH MITT

STEP 1 CLEAN

Part No. 20411

SAY GOODBYE TO BUGS

This double-sided mitt can tackle the toughest of grime without damaging your paintwork. The microfibre side breaks down dirt into minuscule particles, while the other waffle side gets rid of more stubborn deposits like bugs or tar

- Unique 2-in-1 design: Chenille microfibre wash mitt front and waffle bug remover design reverse
- Gives a scratch-free, lint-free & swirl-free finish
- Disintegrate dirt into minuscule particles
- Ultra-fine microfibre - premium quality & super soft microfibre designed to clean delicate finishes
- Tight elastic cuff for maximum control

DEEP SCRUBBER GLOVES

STEP 1 CLEAN

Made from durable and high-strength silicone, these gloves make cleaning tight spots quicker and easier than ever. With flexible bristles that cover the palm and each finger, you'll be able to scrub away at grime in record time as you caress the surface rapidly with your hands.

- Reusable, waterproof silicone gloves made from durable, high strength silicone
- Flexible bristles cover the whole palm and each finger making cleaning fast and easy but are also gentle enough not to damage delicate surfaces
- Built-in inner anti-slip surface for maximum control

Part No. 20404^(S) Part No. 20405^(M)

Part No. 20406^(L)

MICROFIBRE CLOTH

Containing an amazing 'split-fibre' technology, this cloth vastly increases surface area absorbcency to easily eliminate smears and blemishes. Because our cloths are made up of very small fibres, you'll be cleaning at a much deeper level.

- Safe to use on all surfaces
- Deep-pile material traps dirt deep in the pile of the cloth preventing scratches or swirling
- Split-fibre technology for increased absorbcency
- Machine washable

Part No. 272

EXPANDING PINK SPONGE

Contoured to an ergonomic shape for maximum comfort and ease of use. Vacuum packed it to take up less space and to use less packaging materials.

- Compact vacuum packed
- Ergonomic shape for maximum comfort & ease of use

Part No. 300

MECHANIC GLOVES

Muc-Off Mechanics Gloves are designed to offer the hand total 360° comfort and protection against most cuts and scratches with minimal impact to dexterity. Gone are the days of taking the skin off your knuckles when removing a difficult to remove a component.

- Latex-free
- Total 360° protection from most cuts & scratches
- Polyurethane palm coating provides excellent grip whilst preserving dexterity
- Machine washable: Wash at low temp (30°C)

Part No. 152 (S), 153 (M),
154 (L), 155 (XL), 156 (XXL)

CLAW BRUSH

A high-quality construction with three brush heads that feature tough nylon bristles and an integral scraper for mud de-clogging. It's perfect for cleaning your motorbike's chain, and hard-to-reach areas.

- Ideal for chains and hard-to-reach areas
- Scraper for mud de-clogging
- Durable ultra-stiff nylon brushes ensure even the toughest of grime can be cleared
- Features 3 brush heads

CHAIN BRUSH

Keep your motorcycle's chain spotlessly clean with the multi-faceted, ergonomically-shaped brush. Designed to clean 3 sides of the chain at once, it's guaranteed to penetrate deep into your links and rollers.

- Tough nylon bristles to quickly agitate dirt off even the filthiest of chains
- Ergonomically shaped for comfort and stability
- Long brush end is ideal and agitating grime and dirt off front and rear sprockets
- Suitable for most chain sizes and styles including
- Standard O, X and Z-Ring chains

Part No. 204

Part No. 350

SOFT WASHING BRUSH

With soft bristles, it will leave your ride spotless without damaging or scratching the metalwork. Ideal for all disciplines of bike, the brush head features a large surface area for making light work of cleaning your ride, getting in tough areas to reach with ease.

- Rubber edges for maximum protection
- Oversized head for fast cleaning
- Dual density handle for tough grip

Part No. 370

WHEEL & COMPONENT BRUSH

Its unique design features an impact-resistant, dual-density handle and durable nylon bristles. This handy brush makes for rapid wheel cleaning, thanks to its specially curved design – so there are no more muddy rims!

- Ideal for wheels and components
- Suitable for all types of motorcycles
- Rubberised handle

Part No. 371

DETAILING BRUSH

Ideal for reaching hard-to-shift dirt on hubs and other tight areas. Its unique design features a tough, impact resistant handle that won't slip in extreme conditions, durable nylon bristles and rubberised impact zones for maximum protection on delicate finishes.

- Rubberised impact zones for surface protection
- Durable nylon bristles
- Impact resistant handle

Part No. 372

TWO PRONG BRUSH

Its unique design features an impact-resistant, dual density handle for maximum grip in wet conditions and durable nylon bristles. The twin brush heads can even be altered and repositioned to reach even the most awkward areas!

- Great for reaching tough, hard to reach spots
- Ideal for spokes, discs, framework, exhaust tubing
- Rubberised ergonomic handle
- Durable nylon bristles

Part No. 373

2 & 4 STROKE EXHAUST BUNG

STEP 1 CLEAN

DON'T LET YOUR BOTTOM END GET WET!

Made from a two-part flexible silicone rubber core and sleeve, it creates an awesome leak-proof seal to prevent water or other contaminants from getting into your exhaust pipe whilst you're cleaning or maintaining your machine. It's both 2 and 4-stroke compatible thanks to its removable two-part design.

- Tapered design fits most exhaust diameters
- Silicone rubber core construction is sturdy & durable
- Supplied with lanyard for easy removal & storage
- Prevents water or contaminants entering the exhaust during cleaning

BIKE CARE SERIES

MOTORCYCLE PROTECTANT

STEP 2 PROTECT

PERFECT FOR ANY MOTORCYCLE!

Perfect for any motorcycle, this protectant stops dirt sticking in between washes. So you can spend more time enjoying the ride. It's safe to be used on the frame, chain, metal parts, plastics, rubber and of course the paintwork itself.

- High-performance formula leaves dry, non-sticky protective film
- For use after washing to drive out excess water
- Prevents dirt adhesion
- Makes an ideal winter protectant
- Quick and easy to use

Sizes Available:

500ML - Part No. 608

ALL-ROUND PROTECTANT

Developed so it can be used all over your motorcycle, its after-wash corrosion inhibitor drives out moisture, leaving a non-sticky protective layer smelling of fresh vanilla.

UV PROTECTION

Our Motorcycle Protectant comes with UV additives. Using the Muc-Off UV Torch, you can check that you have covered every inch of your pride and joy.

SO HOW DO YOU USE IT?

1. Apply after washing down the bike.
2. Shake can vigorously and apply Motorcycle Protectant to disperse remaining moisture.
3. Wipe off any excess fluid and leave to dry.

*Mask braking surfaces before application. Do not apply to tyre tread or braking surfaces.

HARSH CONDITIONS

BARRIER (HCB-1)

STEP 2 PROTECT

ULTIMATE PROTECTION BARRIER!

Keep your precious steed in tip-top condition with the Muc-Off Harsh Conditions Barrier. With a state-of-the-art thin-film coating, it'll make light work of rust and corrosion. It's the perfect upgrade for winter months, or to keep your motorcycle looking fresh all year long – as you'll have 12 months of protection. It'll keep moisture out, creating a durable anticorrosive layer of protection on your ride's frame, chain, metal parts, plastics and paintwork.

- Dissolves existing rust
- Contains UV application dye to ensure complete protection
- Resistant to hot, cold and salt-water
- Creates a self-healing barrier, active for up to 12 months

Sizes Available:

400ML - Part No. 20356

OUR TEST

An accelerated corrosion test that produces a corrosive attack to coated samples to evaluate the effectiveness of the coating for use as a protective finish.

We carried out 3rd party testing with HCB-1 where equal quantities were applied to mild steel plates and Triumph motorcycle parts. HCB-1 lasted 300+ hours before rust started to set in on the test plate.

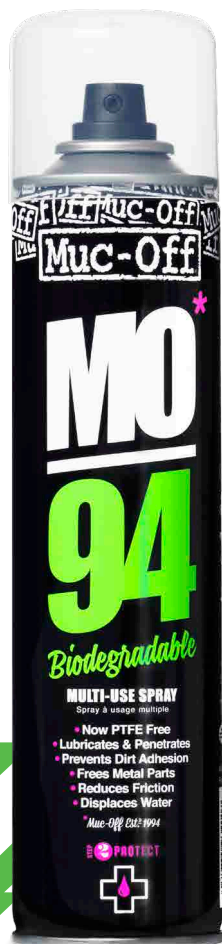

SO HOW DO YOU USE IT?

1. Thoroughly wash and dry the surface before applying.
 2. Before using, make sure the surface you are spraying on is cool and out of direct sunlight.
 3. Shake the can to activate the formula.
 4. Apply a thin, even film of spray on the surface you want to protect* and allow it to dry completely. Check to make sure the coverage is even using the UV torch (sold separately)
- * Do not apply Harsh Condition Barrier to tyre treads and braking surfaces.

MULTI-PURPOSE MO-94

STEP 2 PROTECT

Sizes Available:

400ML - Part No. 934

THE ALL-ROUND WONDER SPRAY!

This incredible formula quickly and effectively penetrates moisture, lubricates moving parts, and leaves a long-lasting protective film. MO-94 prevents dirt adhesion and drives out excess water to keep rust and corrosion at bay. MO-94 isn't just for motorcycles, it works on just about anything.

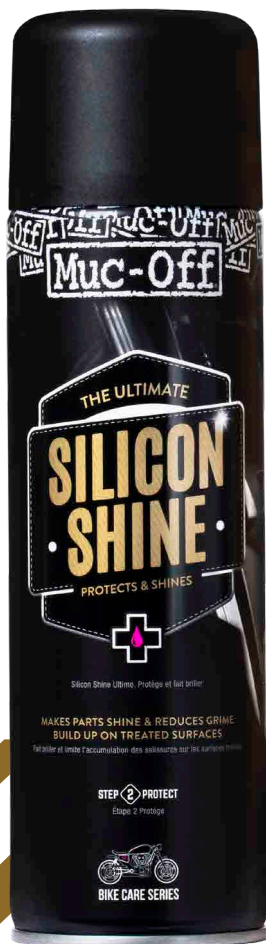

- Biodegradable
- Free seized parts
- Disperses moisture to prevent rust and corrosion
- Provides light lubrication for moving parts
- Cuts down on friction to improve component efficiency

MOTORCYCLE SILICON SHINE

STEP 2 PROTECT

Sizes Available:

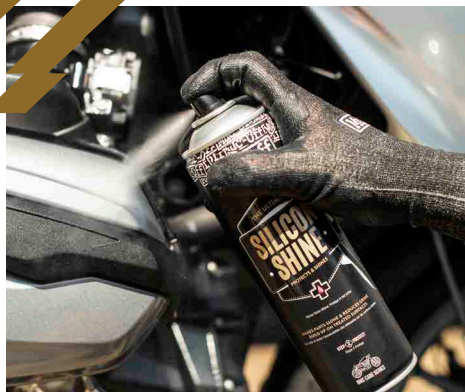

500ML - Part No. 626

LEAVES YOUR BIKE LOOKING FRESH!

Silicon Shine not only leaves your motorcycle looking factory fresh, but it also reduces dirt adhesion. Spray it under your mud guards to stop mud from sticking and make your next clean that little bit easier!

- Protects and leaves a sparkling shine on metal, plastic & rubber parts
- Reduces friction on fork stanchions & rear shocks
- Prevents grime build up on treated surfaces
- Perfect for plastic surfaces on off-road/MX Bikes

MIRACLE SHINE POLISH

STEP 2 PROTECT

Sizes Available:

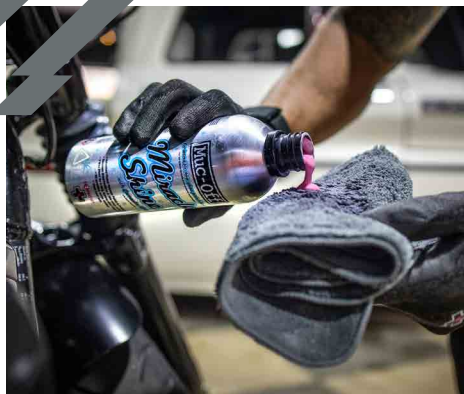

500ML - Part No. 947

OUR LUXURIOUS POLISH THAT'S GUARANTEED TO GIVE YOUR STEED THAT FACTORY FRESH GLEAM!

A high-quality polish and protectant that delivers a deep and luxurious shine for your bodywork, covering treated areas with a microscopic layer that protects against atmospheric pollutants, thanks to its Fluoro Polymer Technology.

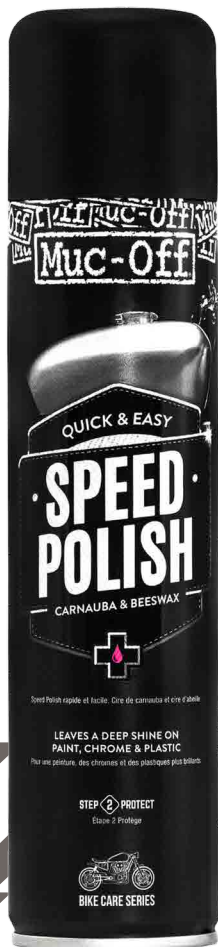

- Removes imperfections and fills minor scratches
- Fluoro Polymer technology creates a microscopic layer of protection
- Repels water and atmospheric pollutants
- Will not leave a powdery white residue
- Safe on paintwork, clear coat, carbon fibre, chrome, metal and plastics

QUICK & EASY SPEED POLISH

STEP 2 PROTECT

Sizes Available:

400ML - Part No. 627

ALL-IN-ONE MOTORCYCLE POLISH & WAX

A quick, easy-to-use motorcycle polish and wax in one. It contains pure Carnauba (the hardest naturally occurring wax) for durability and Beeswax to ensure a deep, glossy shine on your entire bike. It's been specifically formulated to leave a hydrophobic water-resistant barrier, on all of your motorcycle's bodywork and metal parts.

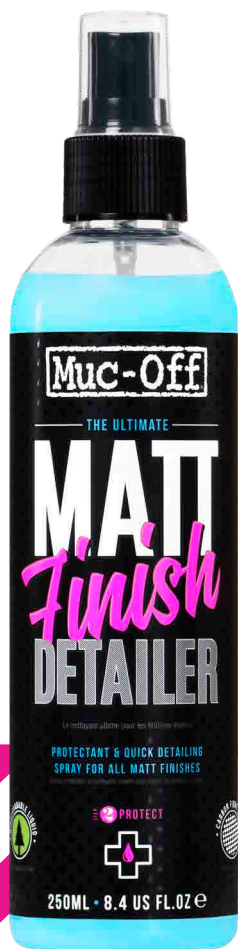

- Quick and easy application
- Leaves a hydrophobic water resistant barrier
- Contains pure Carnauba (the hardest naturally occurring wax)

MATT FINISH DETAILER

STEP 2 PROTECT

GET ANY MATT FRAME OR FORKS LOOKING BACK TO ITS BEST WITH OUR MATT FINISH DETAILER

Get any matt frame or forks looking back to its best with our Matt Finish Detailer. Enjoy a streak-free finish! Fingerprints and glossy marks are now a thing of the past. Matt Finish Detailer has been specifically developed for satin matt paints, matt finishes and matt vinyl wraps. The premium-grade formula will leave any matt surface with a streak and gloss-free protective finish that reduces dirt adhesion.

- Gloss-free finish
- Reduces dirt adhesion
- Streak-free finish

ALL-WEATHER CHAIN LUBE

STEP 3 LUBE

Sizes Available:

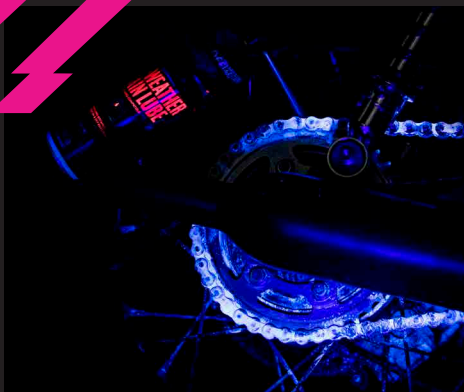

400ML - Part No. 637

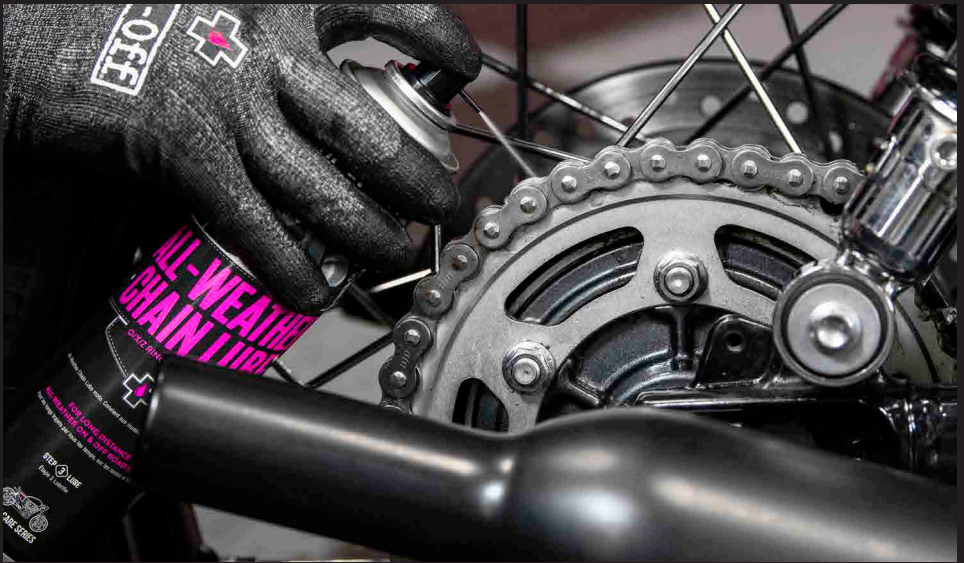

WHEN THE CONDITIONS ARE CHANGING

Our unique water repellent, ceramic, non-fling formula penetrates deep into the chain link. This creates a durable protective coating that will guard your chain against corrosion and metal to metal wear, in all weather conditions. An added benefit to our unique formula is that it includes a UV Dye, which means you can accurately see the lubricant's specific coverage when using a UV Torch.

- Suitable for standard, O, X and Z-Ring chains
- For long-distance all weather on/off-road riding
- High-performance synthetic formula for maximum protection
- Ceramic additives maximise component life & horsepower

GOES THAT EXTRA MILE

After years of research and development, we identified that there were some big differences with what riders want and need from a chain lubricant. After all, racing motorcycles, touring motorcycles and off-road machines are all going to have different chain lube requirements.

Muc-Off All-Weather Chain Lube is the first of its kind and is set to revolutionise chain efficiency and performance for all motorcycles covering longer distances and is ideal for tourers or commuters as you can go far longer between reapplication intervals.

SO HOW DO YOU USE IT?

1. Fully clean, degrease and dry chain.
2. Shake can vigorously and apply lube ensuring every part of the chain is treated.
3. To ensure there is limited overspray and that braking areas are checked, use a UV torch on components and wipe away any excess lube.
4. Reapply as necessary to ensure maximum protection. Avoid contact with brakes. Store in a cool dry place.

MOTORCYCLE DRY WEATHER LUBE

STEP 3 LUBE

Sizes Available:

400ML - Part No. 649

WHEN THE CONDITIONS ARE PRIME

Formulated to hold up to the extreme pressures that are applied to a motorcycle's chain. A highly versatile, dry weather chain lubricant that has superior penetrative qualities ensuring that every part of the chain link is lubricated. Our advanced 'Dry Formula' creates a clean, durable and protective layer that inhibits rust and corrosion whilst also releasing a fresh banana fragrance! The formula has exceptionally low surface friction to provide incredible drivetrain efficiency without attracting contaminants.

- Non-sticky protective film
- Drives out excess moisture
- Prevents dirt adhesion

MOTORCYCLE WET WEATHER LUBE

STEP 3 LUBE

Sizes Available:

400ML - Part No. 611

FOR WET AND HARSH CONDITIONS

Developed to provide maximum protection, no matter what mother nature can throw at your chain. The polymer formula penetrates deep into the chain's links, to reduce wear and friction to a minimum in even the harshest of conditions. Our non-drying hydrophobic lubricant film sticks to every link even during a long, rain-soaked ride. An added UV dye means you can accurately see the lubricant's specific coverage when using a UV Torch, allowing you to wipe away any overspray that may have otherwise gone undetected.

- Suitable for standard O, X and Z-ring chains
- For harsh weather on/off-road riding
- Contains UV overspray dye

MX **RANGE**

HIGH-PERFORMANCE STEP 1 CLEAN

AIR FILTER CLEANER

Sizes Available:

1L - Part No. 20213

5L - Part No. 20157

MAKE CLEANING AIR FILTERS A BREEZE

A state-of-the-art, professional strength biodegradable cleaner that cleans and cares for filters. Rapidly breaking down the stickiest of oils, grease, and the nastiest grime on all foam air filters. The unique combination of active ingredients is formulated to rip through dirt and oil without damaging the foam or glue.

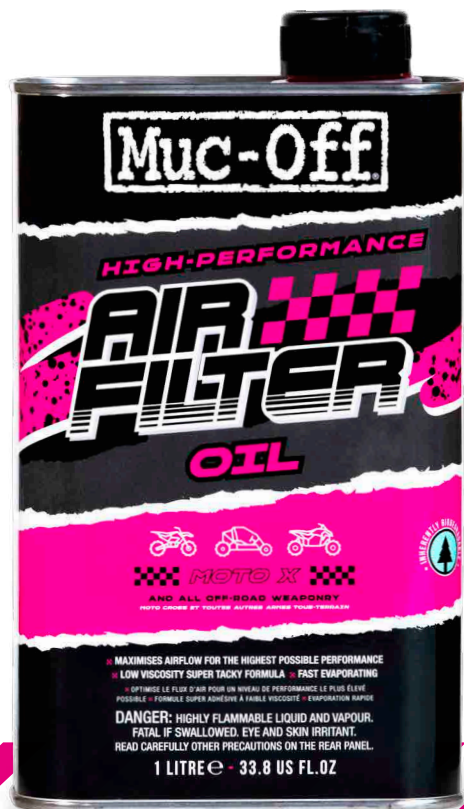

- Biodegradable
- Specifically designed to be ultra-safe on surfaces
- Helps to extend the life of your foam filter
- Suitable for all motorcycles

HIGH-PERFORMANCE STEP 2 PROTECT

AIR FILTER OIL

THE PERFECT AIR FILTER OIL FOR ALL OFF-ROAD VEHICLES

Developed to provide the highest level of engine protection, even when you're going hard in the toughest of conditions. Our proprietary formulation contains polymeric additives which provide a hyper-tacky surface to resist airborne sand, dust, water, mud and grime.

- Inherently biodegradable
- Maximises airflow for the highest possible performance
- Prevents dust, grime and water from entering engine
- Low viscosity, super tacky formula easily penetrates filter
- Helps to extend engine life

Sizes Available:

1L - Part No. 20156

OFF-ROAD STEP 3 LUBE

ALL-WEATHER LUBE

ULTIMATE OFF-ROAD CHAIN LUBE

Suitable for all weather conditions our unique water repellent, ceramic, non-filing Off-Road Chain Lube penetrates deep into the chain link, creating a durable protective coating that guards your chain against corrosion and metal-to-metal wear. An added benefit to our unique formula is that it includes a UV dye, which means you can use a UV torch to make sure you've hit every link of your chain.

- Suitable for standard, O, X and Z-ring chains
- For off-road, long-distance, all-weather riding
- High-performance synthetic formula for maximum protection
- Ceramic additives maximise component life & horsepower

Sizes Available:

400ML - Part No. 20452

**MOTO X AND ALL
OFF-ROAD WEAPONRY**

FOR ALL CHAIN DRIVEN VEHICLES

Every type of off-road rider has different needs when it comes to keeping their chains in optimum condition.

Muc-Off Off-Road Chain Lube changes the game in chain efficiency and performance for all your off-road machinery.

🔥 EXCELS OVER LONG DISTANCE

🔥 MAXIMISES PERFORMANCE

🔥 SUITABLE FOR ALL WEATHER

SO HOW DO YOU USE IT?

1. Fully clean, degrease and dry chain.
2. Shake can vigorously and apply lube ensuring every part of the chain is treated.
3. To ensure there is limited overspray and that braking areas are checked, use a UV torch on components and wipe away any excess lube.
4. Re-apply as necessary to ensure maximum protection. Avoid contact with brakes. Store in a cool dry place.

- Powersports Drivetrain Cleaner 500ml

RIDER **CARE**

HELMET, VISOR & GOGGLE RIDER CARE CLEANING KIT

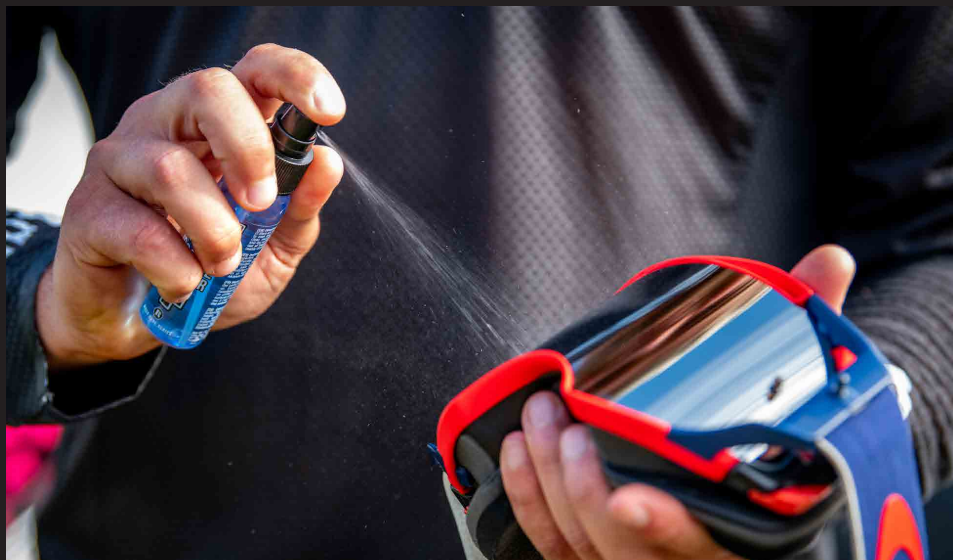

SEEING IS BELIEVING

The Helmet, Visor and Goggle Cleaning Kit is ideal for keeping in your ride pack for quick and safe cleaning on the move. It quickly removes dust, mud, insects, soot and oily residue from your helmet and goggles leaving a streak free finish.

- 100% Biodegradable
- Helmet and Visor Microfibre Cloth
- Designed for delicate finishes
- Premium quality microfibre
- Machine washable
- pH neutral formula as recommended by helmet manufacturers

Part No. 20802

MICROFIBRE CLOTH

Each kit contains a premium quality microfibre cloth that has been specifically designed to clean delicate finishes.

WHAT'S INCLUDED

- Visor, Lens & Goggle Cleaner 32ml
- Helmet & Visor Microfibre Cloth
- Muc-Off Drawstring Pouch

SO HOW DO YOU USE IT?

1. Spray Visor, Lens & Goggle Cleaner onto the surface.
2. Allow formula to soften any hard contaminant particles.
3. Gently wipe with a clean microfibre cloth.

HELMET, VISOR & GOGGLE RIDER CARE CLEANER

Sizes Available:

32ML - Part No. 212

250ML - Part No. 219

GET THE HD VIEW

Safely remove dirt, dust, grime, snow, sweat, and oily residue from all helmets, eyewear, and goggles. Formulated using de-ionised water as recommended by many helmet manufacturers and it's safe to use on all lens materials including polycarbonate. An anti-bacterial cleaner that uses pH-neutral soaps, is fully biodegradable containing no solvents or harmful chemicals.

- 100% biodegradable
- Formulated using de-ionised water
- Free from solvents and harmful chemicals
- pH neutral formula as recommended by helmet manufacturers

ANTI-FOG TREATMENT

➕ RIDER CARE

Sizes Available:

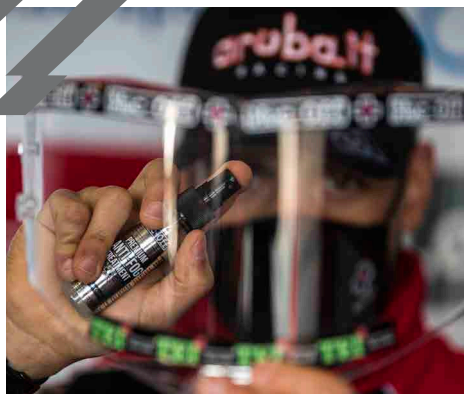

32ML - Part No. 214-1

ENJOY FOG-FREE VISION

Muc-Off Anti-Fog Treatment uses cutting-edge moisture absorption technology with an anti-mist formula to create a transparent, micro-thin coating so your ride is never cut short by foggy goggles! Our Anti-Fog Treatment lasts up to five days, and if you spray on the outside of your swim goggles or sports glasses, the anti-mist formula will help rain bead off to make your ride that much safer!

- Intensive anti-mist formula
- Advanced moisture absorption
- Lasts up to 5 days
- Safe on all plastics and glass

PREMIUM MICROFIBRE RIDER CARE DETAILING CLOTH

A TOP-QUALITY DETAILING CLOTH FOR HELMETS & GOGGLES

Composed of a premium-quality, super-soft microfibre material that has been specifically designed to clean delicate finishes. It's the ideal size for cleaning on the move.

- Split fibre technology vastly increases surface area absorbency, eliminating smears or blemishes
- Use after washing to remove water drops, spots and smears
- Gentle on all plastic and painted surfaces

Sizes Available:

Part No. 20344

FOAM FRESH

➕ RIDER CARE

Sizes Available:

400ML - Part No. 199

FROM HELMETS TO BODY ARMOUR, FRESHEN UP YOUR RIDING GEAR

A highly effective, easy-to-use foam cleaner that is ideal for helmet liners or any soft material that comes into contact with the rider. An instant foaming action, gently agitates dirt and grime away from the surface leaving a fresh Citric Burst fragrance.

- Highly effective
- Instant foaming action
- Fresh citrus smell
- Can be used on a wide range of components including gloves, shoes and body armour

ANTI-ODOUR RIDER CARE SPRAY

KEEPING YOUR RIDING GEAR FRESH AT ALL TIMES!

Our highly effective, easy to use anti-odour spray that uses SILVERPLUS® silver ion technology. It's ideal for removing odour caused by bacteria from body armour, shoe lining, gloves, pads or any soft material, synthetic fibre or textile that comes into contact with your skin & starts to smell over time. Not only will it stop your kit smelling like a skip, but it'll even help it last longer!

- Triple effect odour remover using SILVERPLUS® technology
- Effective against odour caused by bacteria
- Suitable to use on leather/suede/cotton/polycotton softshell/technical fabrics/synthetics*
- Provides freshness for up to 10 washes

Sizes Available:

250ML - Part No. 20507

HOW IT WORKS

SILVERPLUS® technology works by releasing the silver element in the formula onto the fabric. The silver releases positive ions to attach to the negative ions of bacteria. This process prevents odour-causing bacteria.

THE TRIPLE MECHANISM

Silver ions control bacteria in three ways:

- Blocking oxygen-transporting enzymes
- Inactivating sulphur-containing proteins of the bacteria
- Locking the cell membrane

SO HOW DO YOU USE IT?

1. Ensure the item you are applying the spray to is clear of heavy mud/soiling before application.
2. Shake the bottle vigorously before use to activate the formula.
3. Spray directly onto desired area to neutralise odour.
4. Absorb any excess spray with a clean microfibre cloth.
5. Allow to air dry fully before use.
6. We recommend leaving 24 hours drying time before using the item it has been applied to.

RAIN SHIELD

RE-PROOFER

➤ RIDER CARE

REPLENISHES WATERPROOF COATING ON OUTDOOR CLOTHING

Braving the elements? Then grab our new Rain Shield Re-Proofing spray. It creates a cutting-edge DWR (Durable Water Repellent) layer on all types of technical clothing. It uses the latest technology to reduce the surface tension of the fabric to provide excellent waterproofing without compromising the breathability of fabrics. And the best bit? It's safe for the environment as it's water-based and doesn't contain PFCs!

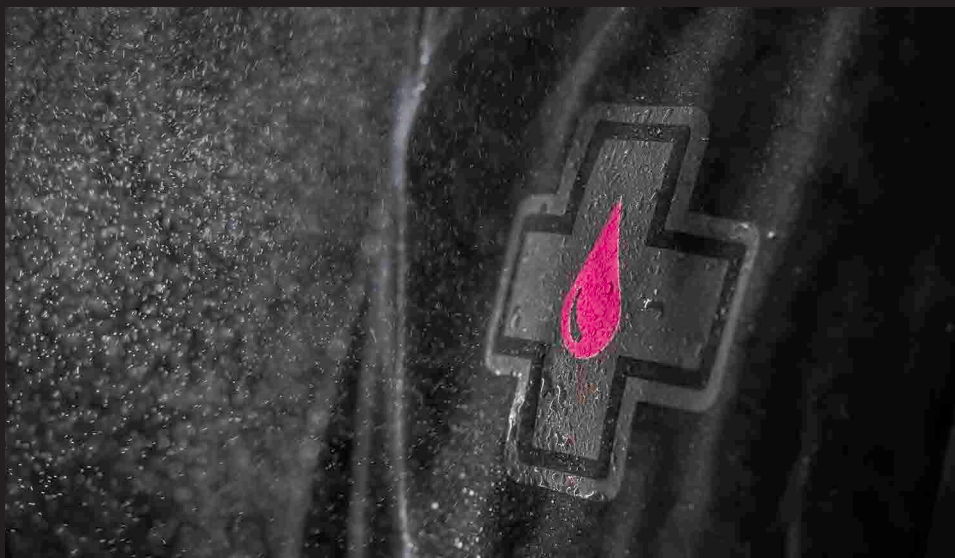

- Replenishes waterproof coating on outdoor garment
- PCF free, water-based formula
- Does not impact breathability of garments
- Extends performance and life of garments

Sizes Available:

250ML - Part No. 20506

BENEFITS OF USE

The DWR coating of garments does naturally wear away over time from wearing and usage. Even ordinary household detergent will ultimately break down existing DWR coating. That's why it's key to use DWR products to ensure water beads right off your garment at all times.

FAST CURING TIME

Our state-of-the-art 'spray on' formula gives unrivalled protection within 24 hours of treatment. After application, water will bead and roll off, so you're protected to go and get rad in the harshest of conditions.

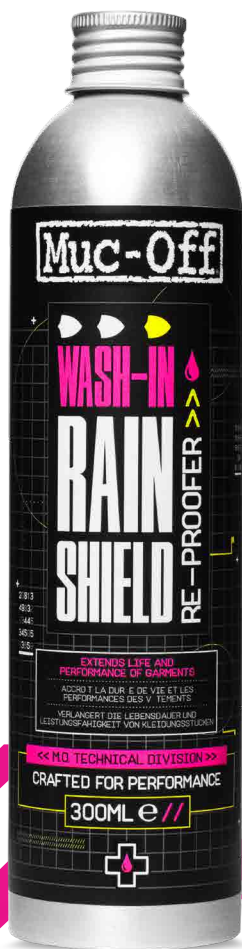

SO HOW DO YOU USE IT?

1. Shake bottle vigorously to activate formula.
2. Spray all over a clean, damp garment from 10-15cm away until garment is fully treated.
3. Remove any excess treatment with a cloth.
4. Allow treatment to cure. Air dry by hanging up & leave to dry overnight before wearing the garment in wet conditions.

WASH-IN RAIN SHIELD RIDER CARE

REPROOFER

Sizes Available:

300ML - Part No. 20813

EXTENDS LIFE AND PERFORMANCE OF GARMENTS

Shredding in the rain? Grab our new Wash-In Rain Shield Re-Proofing. It's an easy-to-use wash-in treatment designed to restore factory levels of performance on all waterproof and breathable fabrics. The cutting-edge DWR treatment creates a tough barrier to keep your technical garments weatherproof, without impacting their breathability.

- Extends life and performance of garments
- Can be used on any technical or waterproof/water repellent fabric
- Helps to repel wet mud and grime and protects against ground-in stains
- PCF free, water-based formula
- Does not impact breathability of garments

TECHNICAL WASH

➕ RIDER CARE

Sizes Available:

300ML - Part No. 20812

GENTLY REMOVES DIRT AND GRIME FROM TECHNICAL APPAREL

Muc-Off Technical Wash is a wash-in cleaner that safely removes dirt, grime, and odours from your technical gear. The unique, concentrated formula gives your garments a deep but safe clean, whilst protecting any existing DWR treatments and the breathability of the material, so it's perfect for freshening up and extending the life of those shred threads!

- Gently removes dirt and grime from technical apparel
- Can be used on any technical or waterproof/water repellent fabric
- Can be used in the washing machine or applied by hand
- Safe to use on any garments with an existing DWR treatment
- PCF free, water-based formula
