COD. 500000079 REV.8

ACERBIS PARTS

A - (1 pcs)

B - (1 pcs)

C - (1 pcs)

D - (4 pcs)

F - (1 pcs)

E - (1 pcs)

H - (5 pcs)

G - (1 pcs)

OEM PARTS

I - (1 pcs)

M - (4 pcs)

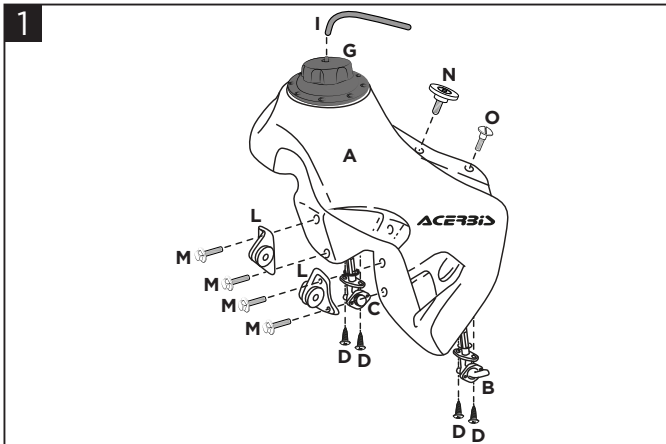

L - (2 pcs)

N - (1 pcs)

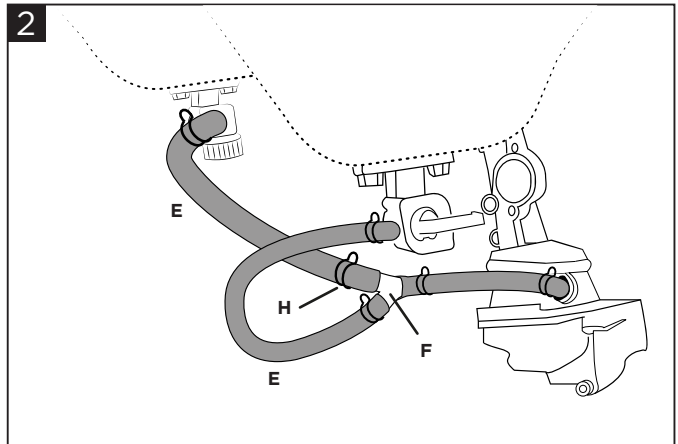

O - (1 pcs)

1
Dismount the original fuel tank. Attach to the Acerbis fuel tank (A), the petcock (B) on left side of fuel tank and (C) on right side of the fuel tank using the screw (D) and the gasket provided in the kit. Tighten original mounts (L) with the original screws (M). Position the fuel tank (A) on the motorcycle and fasten it to the frame tightening the mount (L). Apply the original screws (N) and (O). Apply the Acerbis cap (G) and the vent hose (I). For the metal inserts contained in the fuel tank a maximum torque setting should not exceed 8Nm.

Smontare il serbatoio originale. Montare il serbatoio Acerbis (A), i rubinetti (B) a sinistra e (C) a destra del serbatoio posizionato, montare le piastre (L) con le viti (M) originali. Posizionare il serbatoio (A) sulla moto e fissarlo al telaio serrando le piastre (L). Applicare le viti originali (N) e (O). Applicare il tappo Acerbis (G) ed il tubo in gomma (I). Per gli inserti metallici contenuti nel serbatoio si garantisce una coppia di chiusura massima di serraggio pari a 8 Nm.

2
Cut the fuel line (E), connect two petcocks with Y plastic connector (F), and the carburetor, and attach the fuel line with hose clamps (H).
Tagliare parte del tubo (E) in dotazione, collegare i due rubinetti con il raccordo in plastica (F), e da questo il carburatore, fissando i tubi con le fascette serra-tubo (H).

WARNING

Durante il rimontaggio suggeriamo vivamente di utilizzare un grasso anti-grippante su tutte le viti.

Highly suggest to use anti-seize/grease lubricant on all bolt threads going into the tank's metal inserts when reinstalling.

DISCLAIMER

Due to uncontrolled variables in the manufacturing process of rotational molded fuel tanks, the fuel tank may vary in size and shape by up to 7% of the manufacturer's original listed capacity.

LIBERATORIA

A causa di variabili inponderabili nel processo di stampaggio rotazionale dei serbatoi, questi possono differire in forma e dimensioni fino al 7% rispetto alla capacità dichiarata.

FOR COMPETITION USE ONLY - SOLO PER USO MOTOCICLISTICO

WARNING!

It is EXTREMELY IMPORTANT that the fuel tank be properly installed. To ensure proper installation, it is STRONGLY RECOMMENDED that the tank be installed only by a qualified OEM licensed dealership mechanic. Improper installation could result in serious injury or even death. If self-installed NOTE THE FOLLOWING. Particular attention must be paid to excessive fuel line length and fuel line proximity to hot engine areas and pipes to prevent fire.

Clean tank interior thoroughly before installation. Install this fuel tank only in a well ventilated area, as gasoline fumes are extremely dangerous. Do not start or operate the vehicle if there are any fuel leaks! Read all instructions first before beginning installation.
